VOL. 17, No. 23

PUBLISHED BY LAGO OIL & TRANSPORT CO., LTD.

November 17, 1956

THESE OMINOUS looking clouds appeared quite often two weeks ago. They moved the 'wrong way' - from west to east - and brought with them claps of thunder, bolts of lightning and buckets of water.

E NUBIANAN ominoso aki tabata na bista hopi hialta dos siman pasá. Nan tabata move pa 'banda robéz' - foi west pa oost - y a trece bunto cu nan strena, lamper y yobida casi sin stop.

'Wrong Way Wind' Upsets Island's Composure; Some Damage Wrought

For a number of days - specifically those few that closed October and the first five that opened November - residents of Aruba fell victim to a very uncommon happening hereabouts. The wind changed direction and then picked up a steady velocity and maintained it for a rather lengthy period.

Throughout the major portion of the world the average person pays little heed to the wind unless it assumes unnaturally large proportions. Other than that the wind can swing to any direction it chooses without the slightest notice from anyone. Not so in Aruba, however. When the Trade Winds that constantly blow out of the east vary the slightest degree it is almost as if something tragic had befallen the island. Aruba and its people are tuned for one-way-living with a one-way-wind.

With the end of October the wind started to shift. It swung a complete 180 degrees and until Nov. 5 blew out of the west. Everything shifted with it and went the other way; everything, that is, except the poor divi divi tree. So accustomed is it to one-way-living that it just couldn't bring itself around to a change. The smoke blew the wrong way, the flags blew the wrong way, the cool rooms were on the usually hot side of the house, rains came out of the west and the island's beaches on the normally calm south and southwest sides took a terrific lacing

16 Men Submit Names for LEC Primary Dec. 5, 6, 7

Sixteen men have indicated their desire to compete in the Dec. 5, 6 and 7 primary balloting for the open positions on the Lago Employee Council. The men will vie for four Netherlander positions on the Council and one alternate non-Netherlander post.

Heading the list of candidates are four incumbents: Frederick H. Rittfeld of the Process Department - Cracking, present president; Eligio D. Tromp of the Mechanical Department, present vice-president; Guillermo Giel of the Mechanical Department and Luisito Dirckz of the Marine Department.

(Continued on page 2)

while the usually active breakers no longer rocked into the stoney cliffs of the east and north shores.

Shores Pounded

Havoc was raised on the shores. Breakers mounting to heights of 10 and 15 feet pounded the shores from California Light to Colorado Point. Malmok's jagged coastline drew many spectators who were fascinated by the antics of the pounding waves' leaping sprays. Palm Beach took its share of the beating. Waves raced up the sloping sand banks and when they receded left behind all sorts of ugly debris to mar an otherwise beautiful beach. Fortunately nature very often has ways of cleaning up her own mess and not too long after the wind returned to its rightful direction, the sun, rain and normal tides had once again cleared the area and gave back to Aruba its beautiful Palm Beach.

Coming up the south shore, the boulevard along Oranjestad's waterfront market was torn up in spots. Water inundated the flats south of Sabaneta and San Nicolas. San Nicolas Harbor also experienced moments of anxiety. Tanker travel in and out the harbor was made more difficult by winds buffeting the big ships from the stern instead of head on. The tricky winds and tides claimed one ship Nov. 4. The MS Adrias was hung up on some coral coming through the West Entrance. Her grief was only momentary, however, and she was soon freed to deliver her cargo to Lago's stills,

Gusts Up To 30 MPH

It was the consensus of opinion that a wind out of the west had never before hit Aruba with such velocity. It averaged about 15 miles an hour and hit gusts of 30 miles an hour. Some say the spell was reminiscent of a period in 1932. Others say the '32 incident couldn't compare with the weather of two weeks ago.

Finally Hurricane Greta, who floundered some 250 miles north of Puerto Rico, and rightly or wrongly was blamed for Aruba's weather, blew herself out to the Atlantic Ocean. In so doing the normal, cool 15-mile-an-hour Trade Winds took up their usual position and once again crossed Aruba from the east.

And with all the crazy wind-do-

ings came a generous amount of rain, lightning and thunder. Although no record, the 7.7 inches that fell during October was next best to the record October fall of 9.19 recorded in 1954.

The rain was plentiful, however, and afforded Aruba the opportunity of putting on a green blanket. This she did and, as always, there are those who come out with the inevitable: "Aruba is greener today than ever before." Be that as it may - it's just a matter of opinion - Aruba is green, it rained enough to replenish the lakes in Santa Cruz and set to running a couple of the island's normally dried-up streams. And it looks as if it will continue to rain a wee bit more. Already over three inches have been downed on Aruba's green carpet.

Stacionnan Munstrá Manera Mehó di Trata Clientenan

Trahando ariba e principio sano cu no ta bastante pa bende un motorista gasoline, check su azeta y lage bai, Marketing Division di Lago actualmente ta laga agentenan di Esso ariba e isla cerra conócir cu algun metodo di Esso pa mehor relacion cu clientenan y mas bende.

Actuando como profesor di ventas y operacion di stacion ta John E. Crowley di Division di Esso Standard Oil pa Delaware, Maryland y Distrito Columbia. Actualmente el ta ariba un encargo di seis luna prepará door di Lago y su compania. Su trabao cu Esso ta salesman supervisor; e hendenan cu ta traha cu ne ta haci e mes trabao na Estados Unidos manera el a haci aki.

Sr. Crowley a pasa un siman trahando cu e agentenan y hombernan den cada un di e seis stacionnan ariba e isla. Su obheto tabata pa bai mucho mas leuw cu unicamente benderamento di gasoline y azeta. Loke el tabata busca pa haci - y a haci cu hopi éxito, segun e agentenan mes - tabata pa haci nan mas familiar cu loke otro productonan di Esso ta, kiko nan por haci, y com usa nan. Tur hende den e stacion, e homber di lubricante, e atendedor di pomp of gerente, tin un completo conocimiento di tur acesorianan cu ta worde ofreci pa bende.

Special Withdrawal Arranged for Extra Thrift Contribution

Two-Thirds of Increased Contribution May Be Withdrawn for Christmas

A special Christmas withdrawal option and an increased company contribution to the Lago Thrift Fund made up an announcement of special note to all employees earlier this month. Participants of the Lago Thrift Plan, of which there are 5701, will receive 79 cents for every guilder they have deposited in the fund from Oct. 1, 1955 to Sept. 30, 1956. In addition, they will receive the lump sum of Fls. 25.

The 79 cents for each guilder contributed marks an increase of four cents over last year's 75. It also marks the 17th consecutive year that Lago has given its employees an additional contribution.

Also of great importance to many employee-participants in the Lago Thrift Plan is the announcement that a withdrawal may be made of two-thirds of the extra contribution without restriction under normal administrative rules. In recognition of employees' expressed desires to have additional money during the holidays, a special Christmas withdrawal has been authorized apart from the normal administrative rules governing withdrawals. For the first time, participants in the Lago Thrift Fund regardless of whether they are eligible for a withdrawal or not, may make a withdrawal up to two-thirds of the total additional contribution.

In order to facilitate this new optional withdrawal, employees must announce their intentions to the Accounting Department. A timecard-type questionnaire, to be distributed to all participants Dec. 1, must be filled out indicating the employees' desires and returned not later than Dec. 6. The withdrawal will be available Dec. 13 and 14 in plenty of time for Christmas expenditures.

Also, this special Christmas with-

Contribucion A Worde Haci Na Thrift Fund

Un opcion pa haci un lamtamento special di placa pa Pascu y un contribucion mas halto di compania na Lago Thrift Fund tabata dos punto di un anuncio di interes special pa empleadonan mas tempran e luna aki. Participantenan den Lago Thrift Plan, 5701 en total, lo recibí 79 cents pa cada florin cu nan a deposita den e fondo desde Oct. 1, 1955 pa Sept. 30, 1956. Ademas, nan lo recibí un suma fiho di Fls. 25.

E 79 cents pa cada florin contribui ta marca un aumento di cuatro cents ariba e 75 di anja pasá. Tambe e ta marca di 17 anja consecutivo cu Lago a duna su empleadonan un contribucion adicional.

Por Worde Lamtá

Tambe di gran importancia pa hopi empleado-participantenan den Lago Thrift Plan ta e anuncio cu dos tercera parti di e placa aki por worde lamtá sin restriccion bao e reglanan normal administrativo. Reconociendo e deseo expresá door di empleadonan pa tin mas placa disponible durante e dianan di fiesta, un lamtamento special pa Pascu a worde autorizá aparte di e reglanan normal administrativo cu ta goberna lamtamento. Pa di promer vez, participantenan den Lago Thrift Fund, sea cu nan ta eligible pa lamta placa of no, por hacl un lamtamento te dos tercera parti di su contribucion adicional.

Pa facilita e lamtamento nobo opcional aki, empleadonan mester anuncia nan intencionnan na Accounting Department. Un cuestionario den forma di carchi, repartí na tur participantenan awe, mester worde yená indicando deseo di empleadonan y debilí no mas laat cu Dec. 6. E suma lamtá lo ta disponible Dec. 13 y 14 cu hopi tempo pa haci compras di Pascu.

Lamtamento Special

Tambe, e lamtamento special aki di Pascu, si e worde usá, lo no conta como un lamtamento di placa den e sentido pa determina eligibilidad pa lamta placa bao e reglanan normal administrativo. Si placa no worde lamtá, henter e suma lo worde creditá na cuenta di e empleado.

E anja aki Lago Thrift Plan tabatin, efectivo September 30, 100 por ciento di participacion. Y mas cu 90 por ciento di nan ta depositando 10 por ciento - e maximo permitible - di nan ganamento pa luna. E contribucion extra ta ademas di e contribucion regular mensual di compania na cuenta di empleadonan.

E compania a anuncia tambe cu empleadonan kende tabata participa den e plan Oct. 1, 1956, pero stop di participa pa cualkier motibo promer cu Sept. 30, 1957, lo recibí un contribucion adicional pro-rata basá

Plans Readied for Aruba Hotel

Miami Architect Visits Aruba Cite

The swank resort hotel planned for Aruba is closer than ever to reality. After conferring with Aruba business and government people who are backing the project, architect Morris Lapidus has announced that ground clearing at the Palm Beach site would begin immediately.

Thus the first step will be taken in the biggest project yet undertaken on the island to attract increasing tourist trade, a source of tremendous revenue throughout the Caribbean area.

According to Mr. Lapidus' predictions the building—the Aruba Caribbean Hotel—will be finished before Jan. 1, 1958. Two contracts will be let for the job: one for foundation and one for construction. He believes that the rock bottom just below the sand at Palm Beach will be an excellent base for the foundation.

The cost of the entire project is about Fls. 3,000,000. To raise the money a corporation was formed in which the government, which put up half the money, is represented. Sale of shares of stock to the public will account for the remainder of the capital. Deputy Oscar Henriquez has revealed that Fls. 50,000 in shares has already been sold locally, and said that when construction gets underway, sales of shares will increase.

Mr. Lapidus, who designed many of Miami's big beach hotels, submitted preliminary sketches of the hotel and its related buildings to the Aruba government in June. Some changes were recommended, and final plans were completed in September.

As plans now stand the hotel will be of contemporary design, adapted to Aruba's climatic conditions. It will have 120 rooms and six suites. In addition to a dining room, the facilities will include a cocktail lounge, coffee shop, night club, swimming pool, barbecue area, and a small yacht pier. All indoor areas will be air conditioned.

The architect hopes that bids for the construction can be requested by March, 1957.

"IT WILL GO right there," says architect Morris Lapidus to a group of Aruba government and businessmen. He was speaking of the new Aruba Caribbean Hotel, which he designed, and which will soon be rising from the sands at Palm Beach

Plannan Cla pa Hotel; Architecto Bishitando Aki

E luhoso hotel planeá pa Aruba ta mas cerca di realidad cu nunca. Despues di conferencia cu oficialnan di gobierno y comercio Arubano cu ta sostene e proyecto, Architecto Morris Lapidus a anuncia cu rozamento di terreno na e sitio na Palm Beach lo cuminsa inmediatamente.

Anto e promer paso lo worde tumá den e proyecto di mas grandi nunca emprendi ariba e isla pa atrae trafico creciente di turismo, un fuente di tremende entrada den henter Caribe.

Segun Sr. Lapidus su prediccion e edificio - Aruba Caribbean Hotel - lo bini cla promer cu Januari 1, 1958. Dos contract lo worde aceptá pa e trabao un pa e furdeshi y un pa e construccion. El ta kere cu e suelo di piedra bao di e santo na Palm Beach lo ta un excelente base pa e fundeshi.

E costo di henter e proyecto ta mas of menos Fls. 3,000,000. Pa acumula e placa un corporacion a worde formá den eual gobierno, cu a pone mitar di e placa, ta worde representá. Bendemento di acciones na publico lo trece resto di e capital. Deputado Oscar Henriquez a revela cu localmente ya a worde bendi Fls. 50,000 di acciones, y a bisa cu bendemento di acciones lo aumenta tan pronto cu construccion cuminsa.

Sr. Lapidus, kende a proyecta hopi di e hotelnan grandi di Miami, a presenta dibujonan preliminar di e hotel y edificacion pertinente na gobierno di Aruba na Juni. Algun cambio a worde recomendá, y plannan final a worde completá na Sept.

Segun plannan actual, e hotel lo ta di disenjo contemporaneo, adaptá segun condicionnan di clima Arubano. El lo tin 120 kamber y seis suites. Ademas di un comedor, e facilidadnan lo inclui un cocktail lounge, koffie shop, night club, swimming pool, lugar pa barbecue, y un pier chikito pa yacht. Tur lugar paden lo ta airecondicionado.

E architecto ta spera cu na Maart 1957 recibimento di oferta lo por worde teni pa e construccion.

Sr. Lapidus a revela su plannan pa e hotel grandi y luhoso durante un bishita na Aruba y sitio di e hotel na principio di e luna aki. Su plannan a worde discuti na e sitio cu representantenan di gobierno y di comercio. Sr. Lapidus a viaja bini aki for di Miami unda el tin un di su dos residencia. Su otro residencia ta na New York unda originalmente el a establece su mes como un architecto sobresaliente. Durante su breve permanencia aki e architecto naci na Brooklyn a expresa su entusiasmo tocante e plannan di Aruba y e sitio escogi.

Participants in the Oversea Thrift Plan were also advised of an additional Thrift Plan Contribution where a distribution formula of the same type as for the Lago Thrift Plan was used.

Thrift Fund

(Continued di pagina 1)

ariba e largura di tempo eu nan a participa.

Un empleado cu ta gana Fls. 400 pa luna kende ta deposita 10 por ciento di su ganamento mensual den su cuenta di thrift plan lo acumula un total di Fls. 480 den un anja. Cu compania eontribuyendo 79 cents pa cada florin cu el spaar plus Fls. 25, e contribucion adicional di Lago na cuenta di e empleado aki lo suma 404.20 of ocho por ciento di su ganamento total.

E empleado eu ta gana Fls. 800 pa luna y contribui 10 por ciento na thrift fund ta acumula un total di 960 den un anja. Na 79 cents ariba cada florin, e contribucion adicional lo ta Fls. 783.40 - Fls. 758.40 plus Fls. 25.

Participantenan den Overseas Thrift Plan tambe a worde notificá di un contribucion adicional na Thrift Plan unda un forma similar di distribucion a worde usá.

LEC Primary

(Continued from page 1)

The 10 other Netherlander candidates are Marco L. Croes and Francisco V. Lacle of the Accounting Department, Bernardino Luydens, Maximiliaan A. Baren and Oscar Jacobus of Colony Service Department, Juan S. Maduro of the Technical Service Department, Remacle N. Croes of the Marine Department, Dominico Flemming and Jose L. H. Engelen of the Process Department and Mirto I. Lacle of the Industrial Relations Department.

The two non-Netherlanders seeking the one alternate position are John L. De Abreu of the Industrial Relations Department and McDonald A. Burrows of the Mechanical Department.

Greetings from Santa Claus

At ST. NICOLAAS
ARUBA, NETH. ANTILLES

THIS MAY seem like jumping the season just a bit, but nevertheless this is the picture of Santa that will greet those who get a special Christmas cover through the Aruba Philatelic Society.

ESAKI TA parece manera cu nos ta poco adelantá, pero sin embargo, esaki ta un portret di Sint Nicolaas cu lo saluda esnan cu cumpira e envelop special pa Pascu door di e Aruba Philatelic Society.

Santa and St. Nicolaas Form Philatelic Covers

Indiana may have its Santa Claus, but Aruba has its St. Nicolaas, and stamp collectors all over the world will know about it if the plans of the Aruba Philatelist Society go through as expected.

Going into the St. Nicolaas post office on Christmas Eve will be 2000 specially designed envelopes—"covers" to the stamp collector—bearing the cheerful face of the jolly old gentleman himself and the words "Greeting from Santa Claus at St. Nicolaas, Aruba, Netherlands Antilles." The illustration and the words will be printed in a holiday red.

The idea belongs to the local stamp club. They decided that the proximity of such a name deserved mention, so they devised the cover and advertised in stamp journals in the states that the covers were available. Already orders for more than 1000 have poured in, one from a man in the Gilbert Islands in the middle of the Pacific Ocean. Requests from practically every state in the United States and every province of Canada have arrived, and many from Europe.

Local residents who are stamp collectors or who want to send a Christmas cover to friends can arrange for it by addressing Aruba Philatelic Society, P. O. Box 513, Lago Colony, and enclosing 50 c. for each cover, or Fls. 2.00 for five, along with list of complete names and addresses to which the covers will be sent. The stamp club will do the rest. They will all be postmarked Dec. 24.

If there are any profits, half will go to next year's cover design, and half to veterans' organizations to buy stamp albums for hospitals.

St. Nicolaas Ariba Envelop Filatelico

Indiana por tin su Santa Claus, pero Aruba tin su St. Nicolaas, y colectoran di stampia den henter mundo lo sabi di dje si e plannan di Asociacion Arubano di Filatelista bai door manera ta spera.

Drentando postkantoor di San Nicolas Bispo di Pascu lo ta 2000 envelop specialmente projectá -- "covers" pa e colectoran di stampia -- cu e cara contento ariba di e alegre viejecito y e palabranan "Saludos di Santa Claus na St. Nicolaas, Aruba, Antillas Holandes. E ilustracion y palabranan lo worde imprentá den color corrá di Pascu.

E idea ta pertenece na e club local di stampia. Nan a decidi eu e proximidad di un tal nomber merece mencion, y asina nan a proyecta e cubierta y a anuncia cu e eubiertanan tabata disponible. Ya a bini order pa mas cu 1000, un di un homber den Gilbert Islands den centro di Pacific Ocean. Suplicanan for di practicamente tur estadonan na Merca y provincianan di Canada a drenta, y hopi for di Europa.

Residentenan local cu ta colector di stampia di cu ta desca di manda un cubierta di Pascu pa amigonan por aregla esaki door di adresa Asociacion Arubano di Filatelista, P. O. Box 513, Lago Colony, y encerra 50 cents pa cada cubierta, of Fls. 2.00 pa cinco, completo cu un lista di nomber y direccionnan completo pa unda e cubiertonan ta worde mandá. E club lo haci e resto. Nan marca di post lo ta Dec. 24.

Extra Contribution

(Continued from page 1)

drawal, if used, will not be counted as a withdrawal for purposes of determining eligibility for withdrawal under the normal administrative rules. If no withdrawal is made, the entire sum will be credited to the employee's account under ordinary handling.

This year the Lago Thrift Plan had, as of Sept. 30, 100 per cent participation. And more than 90 per cent of these are depositing 10 per cent - the maximum allowed - of their monthly earnings. The extra contribution is in addition to the company's regular monthly contribution to employee's savings accounts.

The company also announced that employees who participated in the plan Oct. 1, 1956, but cease participating for any reason prior to Sept. 30, 1957, will receive a pro-rated additional contribution based upon the length of time they participated.

An employee paid Fls. 400 a month who deposits 10 per cent of his monthly earnings in his thrift account will accumulate a total of Fls. 480 in one year. With the company contributing 79 cents for each guilder he saved plus Fls. 25, Lago's additional contribution to this employee's account will total Fls. 404.20 or eight per cent of his total earnings.

The Fls. 800 a month earner that contributed 10 per cent to the thrift fund accumulates a total of Fls. 960 in one year. At 79 cents on the guilder, the company's additional contribution will be Fls. 783.40 - Fls. 758.40 plus Fls. 25.

MR. CROWLEY demonstrates the proper method of adding automatic transmission fluid. Harry Fleming, manager of Oduber's service station, watches.

SR. CROWLEY ta demonstra e propio metodo di agrega fluido pa transmision automatico; Harry Fleming, manager di stacion di servicio di Joe Oduber, ta mirando.

THE MAGIC WORD is Esso, says John B. Crowley to Joe Oduber, right, and his crew. During his stay at Oduber's Mr. Crowley gave the staff a thorough indoctrination in the fine art of pleasing customers.

E PALABRA magico ta Esso, asina John B. Crowley ta bisa Joe Oduber, handa drechi, y su personal. Durante e permanencia cerca Oduber Sr. Crowley a duna e trahadornan un indoctrinacion completo.

How To Win Customers And Sell Esso

Working on the sound principle that it's not enough to sell a motorist gas, check the oil and send him on his way, Lago's Marketing Division is currently acquainting the island's Esso dealers with some Esso techniques for improved customer relations and increased sales.

Acting as professor of salesmanship and station operation is John B. Crowley of the Delaware, Maryland and District of Columbia Division of Esso Standard Oil. He is currently finishing up a six-week assignment developed by Lago and his company. His job with Esso is salesman supervisor; the men who work for him do the same job in the States that he has done here.

Mr. Crowley spent a week working with the dealers and men in each of the island's six stations. His aim was to go far beyond the mere selling of gas and oil. What he sought to do -- and did with great success, according to the dealers themselves -- was to acquaint them with what other Esso products are, what they can do, and how to use them. Everyone in the station, lubrication man, island man or manager, has a full knowledge of all accessories offered for sale.

His ideas for pushing various items to stimulate

sales have already borne fruit. In one station, supplies of motor cleaner, exhaust deflectors and upper motor lubricants were sold out in two days. Also coming in for examination and recommendation by the expert were office procedures and good housekeeping in the stations.

But Marketing feels that the most enduring good to come from Mr. Crowley's stay is the fact that he is coaching dealers to coach their own employees in sales technique and smooth operation. By this the extra bit of service and interest in a customer's needs will become a continuing tradition here.

Two other items have been introduced to the local stations in the wake of Mr. Crowley's visit. One is a commission system which provides rewards for the station employee who does a good selling job; the other is the Mystery Motorist campaign. A motorist, unknown to the station personnel, will visit the stations from time to time, and where he finds special courtesy, friendliness and service, he will distribute cash prizes.

The stations Mr. Crowley visited were Frank Croes', A. M. Arends', J. Oduber's, Viana's, Scholten's and Ecury's.

NOTHING IS too small to be checked, and that includes a windshield wiper. Good business dictates that a service station man inform the customer when a new wiper is needed.

NADA TA mucho chikito pa worde gecheck, y esaki ta inclui un wiper di windshield. Bon negoshi ta dicta cu un atendiente di stacion di servicio informá e cliente ora el tin mester di un wiper nobo.

THE CARE of tires is the subject of this discussion between Mr. Crowley and two of the station staff.

CUIDO di tires ta ohheto di e discusion aki entre Sr. Crowley y dos di e trahadornan na e stacion.

MR. FLEMING applies grease to the frame of a battery to inhibit corrosion as Mr. Crowley watches.

SR. FLEMING ta aplica grease na frame di un baterfa pa stroba corosion y Sr. Crowley ta mirando.

THERE IS a good way and a better way to do everything in a service station, even -- or especially -- the bookkeeping. Here Mr. Crowley gives a tip to Miss Mathilda de Windt.

TIN UN hou manera y un mehor manera pa haci tur cos den un stacion di servicio, hasta -- of specialmente -- tenemento di buki. Aki Sr. Crowley ta duna un tip of na Srta. Mathilda de Windt.

Comes the eve of Oct. 31 and the mystic world of the hobgoblins lets loose. It's their night to howl and they do so with the aid of their night-raiding leperchain friends; screeching, broomstick-riding, hoary witches, and willowy, shivering, illusive wisps of ghosts. It makes for a wild, racy evening. And to keep pace with their brothers soaring above, human counterparts assemble at the Esso Club dressed in just about every conceivable garb. This, too, makes for a wild, racy evening. As has been the case in recent years, groups have gotten together and put on short performances of various and sundry nature. This year the performances were all wet. It seems a gent from the world of Greek lore by name of Jupe Pluvius decided to crash the party. He not only crashed the soiree, but also caused a couple of the same. But despite the pouring rain and the inundated patio floor, the hardy souls in attendance made merry and got completely drenched with water and just plain fun.

Asina yega Oct. 31 anochi e mundo mystico di spooki ta los. Esaki ta nan anochi di paranda y nan ta laga sali den tur forma di spirito. Pa tene paso cu nan, nan companjeronan humano ta reuni na Esso Club bisti tambe den tur sorto di traje. Esaki tambe ta bira un desorden. Manera tabata e caso den anjanan reciente, algun grupo a bini hunto y a organiza actuacionnan corto. E anja aki, sinembargo, awasero a hunga nan un man. Pero no obstante e yobida duro y e vloer di patio cu tabata henteramente bao awa, e anoche a resulta masha gracioso.

PROPERLY EQUIPPED for the evening's downpour was this couple. Depicting an Oriental couple, the usual umbrella proved to be functional as well as aesthetic.

EVEN THE Suez situation reached the patio of the Esso Club. This quartet offered liberal desert advantages such as tents, camels and the Canal Club and Sand Dune course. Their attempt to line up prospective canal personnel landed them a group prize.

HASTA E situacion di Suez a alcanza patio di Esso Club. E cuarteto aki a demonstra tent, kameel, Canal Club y curso di Sand Dune. Nan esfuerso pa obtene prospectivo personal pa e canal a gana un premio pa nan.

UNDER LEADEN skies the curious watch the 'wrong way wind' drive mountainous swells against the rocky shore off Malmok. Huge breakers rolled in and over the area that usually presents a relatively normal and calm sea. The rolling swells provided an island-wide attraction.

BAO UN CIELO scur e hendenan curioso ta waak e biento di banda robéz carga olanan manera seroe contra e baranca na Malmok. Olanan grandi tabata bini aden over di e area cu generalmente ta representa un lamar normal y calmo. E olanan halto tabata un atraccion pa henter e isla.

AT THE scrap dump at the far end of the concession waves pounded against the discarded rubbish sending sprays skyward to heights of 10 and 15 feet. Water from the mountainous swells inundated the road running parallel to the sea in this area.

NA DUMP na punto abao di e concesion olanan tabata golpea contra e material bentá afor mandando e scuma 10 te 15 pia halto. Awa for di e olanan grandi a inunda e camina coriendo paralel cu lamar den e area aki.

The last days of October and the first few that ushered in November will long be remembered. For during that period of this year, 1956, the wind blew the 'wrong way'. Instead of coming out of the east it swung 180 degrees and blew for all it was worth from out of the west. The crazy, mixed-up wind not only completely perplexed the one-way divi-divi trees, but bothered the island's entire population normally keyed strictly to one way living. Wind from the opposite direction was just not natural and as can be seen in the pictures on this page caused a lot of unnatural events as well as disconcerting incidents.

E ultimo dianan di October y e promer nan di November lo worde recordá pa hopi tempo. Pasobra durante e periodo aki di anja 1956, biento tabata robéz. En vez di bini di pariba el a tira un vuelta di un 180 grado completo. E biento completamente pa robéz no solamente a sorpresa e matanan di watapana, pero a causa inconveniencia na henter poblacion di e isla cu ta acostumbrá cu biento di un banda sol. Biento for di e direccion contrario no tabata natural y manera por worde mirá den e retratonan ariba e pagina aki a causa un cantidad di eventonan innatural y incidentenan asombrante.

WRONG WAY WIND

HERE IS something not often seen. This tanker tied up at the Gasoline Dock affords a dramatic picture of just how wrong the 'wrong way wind' was. Smoke from the stack clearly blows into the harbor while the ship's flag streams forward.

AKI TA algo cu no ta worde mirá hopi vez. E tanquero aki mará na Gasoline Dock ta ofreece un retrato dramático di com robéz e biento tabata. Hnma di e schoorsteen ta descende net den haaf.

ROLLING BREAKERS plowed through the launch dock area with enough force to snap one of the pilot boats loose from its mooring. The small craft foundered on the coral shore, its hull slightly damaged from the incessant pounding.

OLANAN lorando tahata recorri banda di launch dock cu bastante forza pa los un di e botonan di loods. E boto chikito a dal ariba e terra di coral, su bodega un poco danjá di tanto golpeamento.

THE WIND blowing at a brisk velocity caused pilots and captains moments of anxiety. Buffeted from behind, the MS Adrias entering the harbor Nov. 4 got in too close to the reef and was hung up on the coral a matter of hours.

E BIENTO suplando na un velocidad fuerte a causa loods y captannan momentonan di susto den haaf di Oranjestad y San Nicolas. Cargá di atras, MS Adrias entrando haaf Nov. 4 a yega mucho cerca di rif y a keda algun ora pegá.

NEAR THE butane tanks and slightly southwest of the open storage area waves splashed about the spare pilings, under pipes and into the pump house.

CERCA DI e tankinan di butane y poco zuidwest di e lugar habri di estoraje olanan tabata spart ariba e materialnan, drenta bao di e tubonan y den pump house.

DEPUTY PORFIRIO Croes puts the first stone in place in the Noord sports center wall. This symbolic act underlined the long-range program of the Aruba Sports Union to build a series of athletic fields and facilities throughout the island.

Smit, Corrington Are Promoted

Two Process Department men were promoted recently. They are G. Smit, advanced from assistant shift foreman to shift foreman, and G. G. Corrington, who moved up from relief foreman to assistant shift foreman. Both changes are in Process- Cat. & L. E.

Since joining the company in 1940, Mr. Smit has been apprentice operator, assistant operator, and operator before moving up to assistant shift foreman in June, 1954.

Mr. Corrington, who had several years of service with Standard Oil Co. (N. J.) before coming to Lago in 1955, worked in the Accounting Dept. and the clubhouse before transferring to Process- Cat. & L. E. in December, 1941. He worked there as apprentice operator, assistant operator, operator and relief foreman.

G. Smit

G. Corrington

Martin Re-Eligí Presidente di LSPB

Un homber nobo a worde eligi como oficial di Lago Sport Park Board mientras dos otro a worde re-eligí den e reunion anual di cambio celebrá Nov. 6. Robert E. A. Martin a worde re-eligí presidente y Damian Tromp a worde re-eligí secretario.

Martin Re-Elected Sport Park Head

One new man was elected to the Lago Sport Park Board officers' slate while two others were re-elected in that group's annual turn-over meeting Nov. 5. Robert E. A. Martin was re-elected chairman and Damian Tromp was re-elected secretary.

Elected for the first time was Mateo Reyes to the position of vice chairman.

The complete board with these three men consists of Herman Figueira, A. W. (Jannie) Brokke, C. T. C. Nicolas, J. M. La Cruz, Juan Briezen, A. Geerman and R. Q. Kemp.

Football Tourney Schedule Listed

The Machinists gained the finals in the Esso League Inter-Departmental Football Knockout Tournament, and Lago Police advanced to the semi-finals of the Lago League. Machinist beat LVS and Lago Police whipped Laboratory as they moved ahead.

Police will meet Process in the semi-finals of their League, the winner to play the winner in the Esso League. That team will be determined by the winner of the Metal Trades- Carpenter & Paint match playing Machinist.

The winners of the two leagues will meet for the championship on Dec. 2, at Lago Sport Park.

E Board completo, ademas di e tres hombernan aki, ta consisti di Herman Figueira, A. W. (Jannie) Brokke, C. T. C. Nicolas, J. M. La Cruz, Juan Briezen, A. Geerman y R. Q. Kemp.

16 Hombernan Submiti Nombenan pa LEC Primario Dec. 5, 6, 7

Diez-seis empleado a indica nan deseo pa competi den e eleccion primario Dec. 5, 6 y 7 pa e puestonan vacante den Lago Employee Council. E hombernan lo competi pa cuatro puesto Holandes den Council y un puesto no-Holandes.

Na cabes di e lista di candidato nan ta cuatro miembro actual: Frederick H. Rittfeld di Process Department - Cracking, actual presidente; Eligio D. Tromp di Mechanical Department, actual vice-president; Guillermo Giel di Mechanical Department y Luisito Dirksz di Marine Department.

E 16 otro candidato nan ta Marco L. Croes y Francisco V. Lacle di Accounting Department, Bernadino Luydens, Maximiliaan A. Barendo y Oscar Jacobus di Colony Service Department, Juan S. Maduro di Technical Service Department, Remacle N. Croes di Marine Department, Dominico Flemming y Jose L. H. Engelen di Process Department y Mirto I. Lacle di Industrial Relations Department.

E dos no-Holandesnan buscando esun posicion di reemplazo ta John L. De Abreu di Industrial Relations Department y McDonald A. Burrows di Mechanical Department.

Un siman despues di e primario - Dec. 12, 13 y 14 - lo ta e eleccion final. Miembronan actual di Lago Employee Council ta forma junta electoral cu Max Vries como presidente.

Torneo di Boxeo Amateur Planea pa Lago Sport Park

E torneo di boxeo amateur cu a cosecha tanto exito na Lago Sport Park durante anja pasá a induci Lago Sport Park Board pa aregla un evento similar na Januari. Como 10,000 fanatico di boxeo a bini pa mira e peleanan anja pasá.

Formularionan di participacion mester worde yena y entregá promer cu Dec. 22. Formularionan blanco por worde obteni for di cualkier miembro di Lago Sport Park Board of na Sport Park, y por worde debolbi na e mes fuentenan ora nan ta yena.

Enlistamento final di e peleanan mester warda registracion definitivo, pero ta worde sperá cu un cantidad maximo di amateurs lo participa. Si ta asina, anto probablemente lo tin mas di tres anochi di pelea.

Divisionnan di tur peso lo worde representá. Pa informacion, aki bao ta sigui e clasificacionnan y e limitenan di peso pa cada un:

Flyweight: te 118 liber
Bantamweight: 118 - 128 liber
Lightweight: 128 - 135 liber
Welterweight: 135 - 147 liber
Middleweight: 147 - 160 liber
Light heavyweight: 160 - 175 liber
Heavyweight: 175 liber y mas.

E formularionan lo ta disponible pronto. Instruccionnan completo en cuanto edad minimo di participante- nan y otro consideracionnan ta ariba e formulario aki.

Beyde, Kom Join Retirement Ranks

Two veteran employees whose jobs couldn't be more different are leaving the service of the company on retirement.

One is Jacob E. Kom, cook (merit) in the Dining Hall, who retired Nov. 1, and the other is Jacques F. W. Beyde, carpenter helper A, colony maintenance.

Mr. Kom's service goes back just over 19 years, to September, 1937, when he started as helper in the Dining Hall. Serving later as dishwasher and waiter, he was promoted to assistant cook in July, 1940 and to junior cook in January 1942. He was promoted to his present job in November, 1945.

Spending his entire Lago career of almost 17 1/2 years in carpentry, Mr. Beyde began in June, 1939. He worked as laborer A and carpenter helper B; in June, 1944 he was promoted to carpenter helper A. He is a Surinamer, and will return to his home following his retirement Nov. 30.

Biento Di Banda Robez A Kita Tranquilidad Di Isla

Pa algun dia - specialmente esnan cu a cerra October y e promer cinco cu a habri November - residentenan di Aruba tabata victima di un ocurrencia masha raro aki banda. E biento a cambia direccion y despues su velocidad a aumenta constantemente y a keda manteni pa un periodo largo.

Den henter mundo e persona promedio ta paga poco atencion pa biento tan tempo cu e no bira fuerte di mas. Di otro forma e biento por bira den cual direccion cu ta, sin e minimo preocupacion di ningun hende. Na Aruba, sin embargo, no ta asina. Ora e biento passaat cu ta supla constantemente for di noordoost cambia direccion un tiki mes, ta casi manera ta un tragedia a toca e isla. Aruba y su hendenan ta costumbrá cu biento di un banda sol.

Cu fin di October e biento a cuminza cambia. El a bira un completo 180 grado y te Nov. 5 e tabata

supla di west. Hunto cu ne tur cos a cambia pa otro banda; tur cos, excepto e pober mata di watapana. Esaki ta asina acostumbra cu biento di un direccion cu e no por a yega na un cambio. E huma tabata bai pa direccion robez, e bandera tabata waya robez, e cuartonan fresco tabata na e banda di cas cu generalmente ta calor, yobida tabata bini di abao y e playanan di e isla na banda zuid y zuidoost di e isla cu normalmente ta masha calmo a tumá un zota terrifico, mientras e olanan grandi na costa di norte no tabata asina activo mas.

Na canto di awa un desorden a worde hael. Olanan te 10 y 15 pia halto tabata azota e costa for di westpunt pa Seroe Corrá. Malmok a hala un cantidad di bishitante pa admira e lamar rabioso. Palm Beach a haya su parti di e castigo. Olanan tabata subi halto ariba e santo blanco y ora nan tabata corre atrobe den lamar, nan a laga un monton

mahos di sushedad ariba un playa bonita. Fortunadamente, hopi vez naturaleza tin medio pa drecha su mes danjo y no mucho tempo despues e biento a bolbe cambia pa su direccion di costumber, solo, awa y marea normal atrobe a drecha e lugarnan y a duna Aruba atrobe su Palm Beach bonita.

Lamlando na costa di zuid, laman a kibra varios parti na canto di mercado na Oranjestad. Awa a inundá e lugarnan plat banda zuid na Sabaneta y San Nicolas. Haaf di San Nicolas tambe a experimta momento di ansiedad. Navigacion di tankero drentando y saliendo a worde hací mas difícil door di biento- nan batiendo banda atras di bapor- nan envez di padilanti. E biontonan falso y laman halto a causa trobel na un bapor - solamente pa un momento - Diadomingo, Nov. 4. MS "Adrias" a worde hibá ariba algun rif mientras drentando door di entrada West di hauf. Su incidente ta-

bata solamente momentario, sin embargo, y pronto el a saca su mes for di tal posicion pa entrega su carga pa e stillnan di Lago.

Danjo na e docknan tambe a worde reportá na tur dos Lagoen Grandi y Lagoen Chikito den concession di Lago.

Tabata e opinion general cu un biento di west nunca antes a supla na Aruba cu tal velocidad. Su velocidad tabata como 15 milja pa ora y tabatin algun fugada di biento di 30 milja pa ora. Algun hende ta bisa cu el mal tempo tabata corda nan na un periodo na anja 1932. Otronan ta bisa cu e incidente di 1932 no por worde compará cu e tempo di dos siman pasá.

Finalmente Horcan Greta, cual a pasa algun 250 milja noord di Puerto Rico, y sea cu derecho of sin derecho a worde acusá di a danja e tempo na Aruba, a sigui su curso y a termina den Oceano Atlantico. Haciendo esey, e biento passaat nor-

Amateur Fight Tourney Planned For Sport Park

Last year's enormously successful amateur boxing tournament has prompted the Lago Sport Park Board to arrange a similar event for January. An estimated 10,000 boxing buffs watched the three nights of fights last year.

Entry forms must be filled out and submitted before Dec. 22. Blanks may be obtained from any member of the Lago Sport Park Board or at the Sport Park, and can be returned to the same sources when completed.

Definite scheduling of the fights must await final registration but it is believed that a record number of amateurs will participate. If this is so then probably there will be more than three nights of bouts.

All weight divisions will be represented. For guidance, here are listed the classifications and the weight limits for each:

Flyweight: up to 118 pounds.
Bantamweight: 118-128 pounds
Lightweight: 128-135 pounds
Welterweight: 135-147 pounds
Middleweight: 147-160 pounds
Light heavyweight: 160 - 175 pounds

Heavyweight: 175 pounds and over.

The forms will be available shortly. Complete instructions as to minimum age of participants and other considerations are on the form.

Beyde, Kom den Linja pa Retira

Dos empleado veterano kende nan trabao no por tabata mas diferente ta lagando servicio di compania cu pension.

Un ta Jacob E. Kom, kokki den Dining Hall, kende a retira Nov. 1, y e otro ta Jacques F. W. Beyde, carpenter helper A, colony maintenance.

Sr. Kom su servicio ta origina mas cu 19 anja pasá na September 1937 tempo cu el a cuminza como helper den Dining Hall. Trahando despues como dishwasher y waiter, el a worde promoví pa assistant cook na Juli 1940 y como junior cook na Januari 1942. El a worde promoví pa su trabao actual na November 1945.

Sr. Beyde a cuminza na Juni 1939 y a pasa casi su henter servicio di 17-1/2 anja den carpenteria. El a traha como laborer A y carpenter helper B; na Juni 1944 el a worde promoví pa carpenter helper A. El ta un Surinamo, y lo bolbe pa su terra nativo despues di su retiro Nov. 30.

mal y fresco di 15 milja pa ora a bolbe tumá su direccion di costumber y un bez mas ta supla over di Aruba for di Oost.

Y hunto cu e biramento di biento a bini un bon yobida di awa. Aunque no tin ningun record, e 7.7 duim di awa cu a cai durante October tabata e segundo mehor record di yobida na October di 9.19 cu a worde registra na 1954. E yobida promedio durante di diez luna di e anja aki ta 2.27.

E yobida tabata abundante, sin embargo, y a duna Aruba un oportunidad di haya un capa berde ariba suelo. Esaki e yobida a haer, y manera semper, tin hende ta bisa nes ora: "Awe Aruba ta mas berde cu nunca antes." Pero con que sea - ta solamente un question di opinion - Aruba ta berde. Tabatin bastante yobida pa yena e tankinan na Santa Cruz y pa pone e rocinan seco di Aruba corre atrobe. Y ainda ta parece cu lo tin mas yobida.

SPORTS ODDITIES

THE TITLE of "Hard Champs" might be claimed by last year's baseball team at St. Bernard's School in New Jersey. In its first eight games the team ran into seven no-hit performances by opposing pitchers.

The team's leading hitter after the eight games was a pitcher: his total number of hits added up to one.

EXCEPT FOR one little detail, Paul Kravitz might put in his claim as track's Hard Luck Champ. As a member of the Columbus, N. Y. track team, he ran in a meet in New Jersey. There he won his heat in the dashes only to discover that he had run 120 yards instead of 100; in the next heat a check revealed that the distance was only 95 yards. A few later in another meet a dog ran into him during a race, and it had to be re-run. But those things didn't bother him: he won his events in both meets.

A WISCONSIN woman sued her husband for divorce because he hought only one season's ticket to the Milwaukee Braves games, and wouldn't take her with him when he attended.

THE PITCHER for Cathedral High School momentarily lost his control during a game, and his pitch hit the ground in front of the plate. The over-anxious batter swung at the bouncing ball, connected and drove in the winning run.

BOYS, YOU'RE IN A BATTING SLUMP! YOU'VE LOST SEVEN STRAIGHT NO HITTERS!

HOW TO SET UP AN AQUARIUM

1. Get a large fish bowl or AQUARIUM TANK.

CLEAN IT WELL INSIDE

2. Wash SAND and cover bottom with it 2 inches deep.

SLOPE THE SAND

3. Put in root plants like SAGITTARIA, add water to within 2 inches of top and put in floating plants like DUCKWEED.

4. Let plants get started growing a few days before putting in the fish like these...

DON'T OVERSTOCK YOUR TANK AND DON'T CLUTTER IT WITH JUNK OR SHARP OBJECTS!

Motoring Terms Vary In USA And England

It seems funny, but British and American motorists have different words for the same things on their cars and other motoring terms. Just in case some non-British folks are planning a trip to that island, the Esso News has devised this little test.

In Column A you have ten American terms, and in column B, you have 11 British expressions. Your job is to match them up by placing the number of the expression in Column B in front of its counterpart in Column A.

Score 10 for each correct answer. (Answers are printed below.) If you score between 70 and 100, by all means, go to England; between 50 or 60, better study a little first; below 50, stay at home.

COLUMN A	COLUMN B
—Sedan	1. Wind Screen
—Trunk	2. Caravan
—Fenders	3. Verge
—Hood	4. Road Division
—Gasoline	5. Lamps
—Wrench	6. Wings
—Trailer	7. Spanner
—Detour	8. Petrol
—Lights	9. Bonnet
—Road Shoulder	10. Boot
	11. Saloon

ANSWERS

11, sedan; 10, trunk; 6, fenders; 9, hood; 8, gasoline; 7, wrench; 2, trailer; 4, detour; 5, lights; 3, road shoulders.

Here's How News Got Its Name

Did you hear that the word NEWS came from the first letters of the points of the compass, North, East, West, and South? There is no authority for such an idea. "News" is merely the plural of "new" and means new things. Five hundred years ago it was pronounced in two syllables and written newes, and sometimes newys.

Edison Tabatin Humilde Principio

Tabata den verano di 1862 cu un mucha homber pareuw a aparece na e edificio den Detroit cu ta carga un borchí FREE PRESS ariba.

"Mi kier mira e redactor," el a bisa e recepcionista.

"El ta ocupá," tahata e contesta. "Pero mi tin asunto importante di trata cu ne," e bishitante a insisti.

Algo tocante e mucha homber a haci e recepcionista acepta su palabra, y el a desparece den un oficina interior. Algun momento despues el a bolbe. "E redactor kier mira bo awor."

Paden e bishitante a mira dos homber; mes ora el a presenta su asunto.

"Mi ta Tom Edison. Mi ta biba na Fort Huron, y mi ta bende corant, cos dushi y otro cosnan ariba e trein entre cas y Detroit. Ariba trein mi ta publica un corant cu yama "The Weekly Herald." Mi ta print 300 copio, pero mi por bende como 1000 si mi tabatin e papel pa print e ariba."

"Bo kier nos entrega bo e papel?" un di e hombernan a puntra.

"Si, senjor; mi ta paga bo tan pronto cu mi bende nan."

Asina nan a dune'le e papel cu el tabatin mester. Ariba trein e hoben Tom Edison tabatin un otro press di man y algun letra y cu esey el tabata saca su corant. El a bira e periodista, printer, redactor, publicador y bendedor di e promer corant cu a yega di worde sacá ariba trein.

Na cada parada, Tom ta bula abao pa bende su corant pa tres cent pa un cu e personanan cu ta warda pa subi e trein y cu otronan den e stacion.

Pero el tabata sabi cu si el tabata kier aumenta su ventas, el mester a traha mas duro. El a convence e telegrafista na Fort Huron pa telegrafia en adelante na otro stacionnan e caheznan di e noticia mas interesante; e agentenan di stacion tabata plak e boletinanan ariba borchí, loke tabata haci e hendenan mas ansioso pa leza e corant di Edison ora e trein yega.

Na Utica, e promer parada ariba e dia cu el a print 1000 copia pa di promer vez, tabatin un multitud grandi ta warda'le. En vez di hende dos copia manera generalmente, el a bende 35. Cos a sigui asina tambe. Ora e viaje a termina el a bende tur copia y a gana mas placa cu nunca. Asina el tabata por a paga su amigonan di "Free Press" pa e papel cu nan a bende'le ariba credito.

Den anjanan subseguente el a atribui frecuentemente e base di su éxito na e dianan cu el tabata scirbi, print y bende su "Weekly Herald" ariba trein. "Mi a sinja un les valioso e tempo," el tabatin costumbe di bisa. "Mi a sinja cu éxito ta pa esun cu planea adilanti y traha duro pa haci su plannan bira realidad."

AS A BOY, THOMAS EDISON PRINTED AND SOLD PAPERS ON THE TRAIN RUNNING BETWEEN FORT HURON AND DETROIT, MICHIGAN—LATER, HIS IDEAS MADE HIM ONE OF THE WORLD'S GREATEST INVENTORS.

Edison, Great Inventor, Had Humble Beginning

It was in the summer of 1862 that a hoy in his early teens appeared at a Detroit building bearing the sign FREE PRESS.

"I want to see the editor," he told the receptionist.

"He's husy," was the reply.

"But I have important business with him," insisted the visitor.

Something about the newcomer caused the receptionist to heed his words, and he disappeared into an inner office. A few moments later he was back. "The editor will see you now."

Inside the visitor saw two men; immediately he stated his business.

"I'm Tom Edison. I live in Fort Huron, and I sell newspapers, candy and other things on the train between home and Detroit. On the train I publish a newspaper called "The Weekly Herald". I have been printing 300 copies, but I could sell a thousand if I had the paper on which to print them."

"You want us to supply you?" one of the men asked.

"Yes, sir; I will pay you as soon as I sell them."

So they let him have the paper he needed. On the train young Tom Edison had a second-hand press and some type, and he had been publishing his newspaper with these. He had become the reporter, pressman, editor, publisher and newsdealer of the first newspaper ever to be published on a moving train.

At every stop, Tom would jump off and sell his papers for three cents apiece to the persons waiting to board the train and to others in the station.

But he knew that if he wanted to increase sales he would have to work harder. He persuaded the railroad's telegraph operator at Fort Huron to wire ahead to other stations the headlines of the most interesting news; the station agents posted the bulletins on boards at the stations, which made the people more eager to read Edison's newspaper when the train arrived.

At Utica, the first stop on the

day when he printed 1000 copies for the first time, there was a large crowd waiting for him. Instead of selling two copies, as he usually did, he sold 35. It was that way all along the line. When the trip was ended he had sold every copy and had made more money than ever before. He was able to pay his friends on the "Free Press" for the paper they sold him on credit.

In time Edison left the newspaper business and embarked on a career in science and mechanics that made him one of the world's greatest inventors; it was he who gave up the electric light, the phonograph and countless other useful inventions.

In later years he often laid the basis of his success to the days when he wrote, printed and sold his "Weekly Herald" on the train. "I learned a valuable lesson then," he used to say. "I learned that success awaits him who plans ahead and works hard to make his plans come true."

Raredad den Deporte

E TITULO "Campeonnan di Mala Suerte" por worde reclamá door di e equipo di haseball di St. Bernard's School na New Jersey anja pasá. Den su promer ocho wega e equipo mester a wanta siete actuacion di no-hit door di pitcher oponente. Despues di e ocho weganan e bateador sobresaliente tabata un pitcher: su total di hits tabata uno.

EXCEPTO pa un detaye chikito, Paul Kravitz por haci reclamo ariba e titulo Campeon di Mala Suerte den atletismo. Como miembro di e equipo atletico di Columbus, N.Y., el a corre den un encuentro na New Jersey. Aya el a gana den dashes sol descubriendo cu el a corre 120 yarda en vez di 100; den e proximo evento un check a revela cu e distancia tabata solamente 95 yarda. Algun dia despues den un otro pustamento un cachor a corre dal contra dje, y e careda mester a worde corri di nobo. Pero e cosnan aki no a preocupe'le: el a gana toch.

UN MUHER na Wisconsin a keha su esposo pa divorcio pasobra el a cumpra solamente un ticket pa weganan di Milwaukee Braves, y no tabata kier a hibe'le cu ne.

E PITCHER pa Cathedral High School momentariamente a perde su control durante un wega, y su pitch a dal na terra dilanti e plate. E bateador ansioso a swing pa e bala bulante, dal e y empuja e careda ganador.

ZOO'S WHO

SCIENTIFIC TESTS HAVE SHOWN SNAKES TO BE ENTIRELY DEAF, THUS, THE RATTLER CANNOT HEAR HIS OWN RATTLE, AND THE COBRA CANNOT TAKE HIS RHYTHM FROM THE SNAKE'S CHARMER'S MUSIC, BUT FROM THE SWAYING OF THE PERFORMER'S BODY...
